Health Informatics and Administration (B.S.)

Location(s): [Online](#)

← Return to: [Programs](#)

120 hours

The B.S. in Health Informatics and Administration will prepare graduates for leadership in the healthcare delivery industries that are responsible for implementation and administration of EHRs as well as other clinical information systems, security, and data analytics in all healthcare settings. Graduates will also be indispensable members of healthcare teams through their role in managing and protecting the knowledge of healthcare to ensure the effectiveness and efficiency of care.

The B.S. in Health Informatics and Administration is a four year, 120 semester hour program. Students complete two years of liberal arts and sciences classes followed by immersion in healthcare informatics administration courses. All students seeking a Bachelor of Science degree in Health Informatics and Administration must participate in a mandatory Capstone/Applied Learning Experience in their last semester.

The HIA B.S. degree program is offered online in order to make the program as accessible as possible to students who may have time or geographic constraints that prevent them from attending classes on campus

Core IMPACTS – 42 hours

Refer to Core IMPACTS

Institution: No exceptions

Mathematics: MATH 1111 or higher

Citizenship: No exceptions

Humanities: No exceptions

Writing: No exceptions

STEM: MATH 1401 recommended

Social Sciences: No exceptions

Field of Study – 18 hours

- BIOL 2251K – Human Anatomy and Physiology I
- BIOL 2252K – Human Anatomy and Physiology II
- HLTH 1000 – Introduction to Health Information Technology
- HLTH 2000 – Introduction to Healthcare & Health Related Professions
- HLTH 2100 – Introduction to Health Care Systems and Administration
- HLTH 2300 – Introduction to Public Health

Major Requirements – 60 hours

Common Curriculum - 46 hours

- CIS 2201 – Computer Information Systems
- CIS 3000 – Application Development
- CIS 3400 – Data Management
- CSCI 1301 – Computer Science I
- or CSCI 1301K – Computer Science I
- HLTH 3100 – Essentials of Healthcare Informatics
- HLTH 3103 – Legal Aspects of Healthcare
- HLTH 3150 – Electronic Health Record Essentials

- [HLTH 3151 – Electronic Health Records Usability & User Centered Design](#)
- [HLTH 3200 – Application of Healthcare Statistics](#)
- [HLTH 3350 – Consumer Health Informatics](#)
- [HLTH 3400 – Healthcare Data Management and Analytics](#)
- [HLTH 3450 – Healthcare Data Acquisition and Management](#)
- [HLTH 3800 – Data Visualization and Presentation](#)
- [HLTH 3950 – Healthcare Code Sets & Clinical Terminologies](#)
- [HLTH 4100 – Healthcare Informatics Project Management](#)

Electives - 12-13 hours

Students must take 12–13 elective hours from the following courses:

- [CIS 3300 – Systems Analysis and Design](#)
- [CSCI 3050 – Information Security](#)
- [CSCI 3250 – Computer Security](#)
- [CSCI 3550 – Management of Information Security](#)
- [HLTH 3203 – Healthcare Finance and Reimbursement](#)
- [HLTH 3600 – Networking and Health Information Exchange](#)
- [HLTH 4150 – Healthcare Information Systems Implementation & Administration](#)
- [HLTH 4250 – Leadership and Change Management in Healthcare Informatics](#)
- [HLTH 4400 – Healthcare Decision Analysis](#)

Capstone - 2 hours

- [HLTH 4500 – Healthcare Services & Informatics Administration \(HSIA\) Capstone](#)

Other Requirements

- [US and Georgia History Requirements](#)
- [US and Georgia Constitution Requirements](#)
- [Regents' Skills Program Requirements](#)
