Mathematics/Engineering Dual Degree Program (B.S.)

Location(s): [Dahlonega](#), [Gainesville](#)

← Return to: [Programs](#)

120 hours

The University of North Georgia offers a dual degree program which allows students to receive a bachelor's degree in mathematics from UNG and a bachelor's degree in engineering from a participating university. Students are provided the opportunity to attend the University of North Georgia for approximately three years before embarking on approximately two years of engineering coursework at the University of Georgia, Georgia Institute of Technology, Georgia Southern University, Kennesaw State University, Clemson University, or Mercer University. After completing the academic requirements of both institutions, the student receives a bachelor's degree in mathematics from the University of North Georgia and a bachelor's degree in a chosen engineering field from the second institution.

UNG faculty and staff work closely with the faculty of the engineering schools to assure a curriculum which is well-coordinated. Dual degree students first satisfactorily complete the UNG required curriculum and pre-engineering curriculum required by the transfer institution, and then apply for transfer to the engineering school. However, admission to the engineering

school will also be based upon the specific requirements of each program, such as overall grade point average, math–science grade point average, and other factors determined by that institution. These requirements vary, and each school’s transfer expectations and requirements are listed on their website. UNG faculty and staff advisors in the related dual degree field should also be consulted for their assistance with the dual degree process.

Dual Degree Requirements:

1. Complete the course work required by UNG as given below.
2. Complete the course work required to transfer to the chosen institution with their required GPA.
3. Complete the required engineering program at the transfer institution.
4. Apply for the second B.S. degree from UNG.

Core IMPACTS – 42 hours

Refer to Core IMPACTS

Institution: No exceptions

Mathematics: MATH 1113 or MATH 1450

Citizenship: No exceptions

Humanities: No exceptions

Writing: No exceptions

STEM: MATH 1450 or MATH 2460

Social Sciences: No exceptions

Field of Study – 18 hours

- MATH 2460 – Calculus II (if not taken in Core IMPACTS STEM)
Note: MATH 2800 may be taken in the Field of Study when 2460 is taken in Core IMPACTS STEM.
- MATH 2470 – Calculus III
- PHYS 2211 – Principles of Physics I
- PHYS 2212 – Principles of Physics II
- CSCI 1371 – Computing for Scientists and Engineers
- Carry over from Mathematics and/or STEM (1–2 hours)
- Note: PHYS 2211K may be taken in place of PHYS 2211/L, and PHYS 2212K may be taken for PHYS 2212/L

Major Requirements – 60 hours

Required Courses

- MATH 2800 – Introduction to Mathematical Proof (If not taken in Field of Study, otherwise 3xxx or 4xxx Math Elective)
- MATH 3000 – Differential Equations
- MATH 4600 – Introduction to Abstract Algebra I
- MATH 3650 – Introduction to Linear Algebra
- MATH 4200 – Introduction to Real Analysis I
- PHYS 2211L – Principles of Physics I Lab
- PHYS 2212L – Principles of Physics II Lab

Choose one:

- PHYS 3111 – Mechanics I
- MATH 3XXX or 4XXX elective other than MATH 3100, 3110, 3112, 3116 and 3140

Choose one:

- MATH 3350 – Probability & Statistics
- MATH 4180 – Functions of a Complex Variable

Electives

To bring the total number of University of North Georgia credit hours to 90 and total credit hours to 120 for the degree. Recommended Electives:

- ENGR 1000 – Introduction to Engineering
- ENGR 1101 – Introduction to Engineering & Design
- ENGR 1770 – Engineering Graphics & Design
- ENGR 2001 – Statics
- BIOL 1107K – Principles of Biology I
- BIOL 1108K – Principles of Biology II
- MATH 3XXX or 4XXX courses

Other Requirements

- US and Georgia History Requirements
- US and Georgia Constitution Requirements
- Regents' Skills Program Requirements
