Geospatial Science and Technology Minor

Location(s): [Gainesville](#)

← Return to: [Programs](#)

16 hours

Location is a fundamental attribute of all features. Professionals in a wide range of disciplines are utilizing Geospatial Science & Technology to collect, manage and analyze geographic information for a deeper understanding of our world. In many disciplines, knowledge of geospatial technology has become a presumed prerequisite. The Geospatial Science & Technology Minor is a program that combines theory and application to address real-world problems in a variety of disciplines. Course material is tied closely to the geospatial industry.

Minor Requirements

Note: GISC 2011 and GISC 2011L cannot be used toward the minor if used in Core IMPACTS STEM. In this case, students should choose an additional GISC course from those listed.
